PROFESSIONAL PHOTOGRAPHER

"To me photography is about capturing what it feels like rather than what it looks like"

My career & experience over two decades has always centered around people, creativity & art.

I discovered my passion for photography whilst working in the fashion industry, working across Europe, capturing beautiful designs showcased by professional models. I have a natural affinity for capturing people, architecture and landscapes in everyday situations that capture unforgettable moments in time and place.

I take pride in connecting with people in a genuine caring way, allowing them to feel comfortable and at ease in front of the camera. Always smiling and hoping I can bring a smile to the faces of everyone I meet. Photographing special family occasions is an honour and a privilege and I love to be able to capture those moments that can live on forever within my pictures.

Leaving London behind we have now settled as a family in the Redlands, I could never have imagined the natural beauty that surrounds us or the deep rooted history we have here. I have been honoured to have my images shared by Brisbane City Council and to be invited to photograph local businesses and cityscapes as well as private commissions. My passion for photography and cinematography continues on, supporting people, business, organisations and communities throughout Queensland. It's so rewarding developing meaningful stories through powerful imagery.

Testimonial.

Heidi Medok
Director - HM Connections

"The quality of his images is outstanding, and Darren captures the atmosphere, the action and the finer details so incredibly, you can practically feel the moments just by viewing the photos. He discovers and captures the beauty in everything - including a building that has stood for 170 years as the oldest licensed pub in Queensland! We are so pleased Darren was happy to provide his services to the team at Grand View Hotel and look forward to proudly sharing more of his work in the future".
